AZUVI

Contemporary Architecture

COLLECTION 2018/19

AZUVI, compañía referente en el mercado nacional e internacional, comenzó su carrera en 1956 en la ciudad de Vila-real. Está considerada como una de las empresas pioneras en desarrollo tecnológico y diseño, ampliando día a día su compromiso con el cliente.

Azuvi basa su visión estratégica en la formación y motivación de su equipo humano, así como en hacer compatible el crecimiento y la rentabilidad con el respeto por el Medio Ambiente.

Un equipo muy unido que trabaja compartiendo las mismas pasiones: el arte, el buen diseño, la arquitectura, el enfoque al producto y una visión particular de la vida.

AZUVI

AZUVI, a reference company in the national and international market began its path in 1956 in the town of Vila-real. It is considered one of the pioneers in technological development and design, fostering day by day its commitment to its customers.

Azuvi's strategic vision is based on the training and motivation of its staff, as well as to reconcile growth and profitability with the respect for the environment.

A united team that works sharing the same passions: art, good design, architecture, focus on product and a particular view of life.

INSTRUCCIONES PARA LA COLOCACIÓN / INSTALLATION INSTRUCTIONS

REVESTIMIENTO / WALL TILES

INSTRUCCIONES ESPECÍFICAS DE COLOCACIÓN PARA LOS MODELOS CON DIRECCIONALIDAD
SPECIFIC TILE-LAYING INSTRUCTIONS FOR MODELS THAT MUST BE LAID FACING A PARTICULAR WAY

Para la correcta instalación de los modelos 30x90 y 30x60 se aconseja que la parte escrita del lateral de la pieza (registro del nombre del modelo y lote) quede siempre colocada en la parte inferior. En cuanto a las piezas señaladas, se toma como referencia las flechas indicativas en la parte posterior de la pieza.

For the correct installation of the 30x90 and 30x60 models, it is recommended to place the written part on the side of the tile (model name and batch number) always on the bottom. Regarding the pieces detailed below, always lay the tiles with the arrow on the back facing the same direction.

CHISELED
SCRAT
RULED
CUBE
LINE
TWEED
CANVAS
RIGATO
PROJECT DEC
SPIRIT MODULE
MULTISTONE
LINEAL
MULTIFATIMA
ONDAS
BASIC DEC

En el caso de 40x120, se recomienda que las flechas ubicadas en la parte posterior de la pieza sigan la misma dirección.
In the case of 40x120, it is recommended that the arrows on the back of the pieces follow the same direction.

PROPUESTAS DE COLOCACIÓN DE LA SERIE CORNER & SIDE PROJECT
PROPOSALS FOR THE INSTALLATION OF THE SERIES PROJECT, CORNER & SIDE VERSIONS

CONSEJOS DE COLOCACIÓN / LAYING ADVICE

1. Para conseguir un resultado óptimo en la colocación de este producto es imprescindible el cumplimiento de las siguientes recomendaciones: Maestrar las paredes y los suelos antes de la colocación. Manipular las piezas con cuidado para evitar problemas de despuntados y rayado.

1. To achieve optimum results in the laying of this product it is essential that you carry out the following recommendations: Plaster the walls and screed the floors before laying. Handle the tiles with care to avoid problems of chipping and scratching.
2. Para la fijación de las piezas, usar un cemento cola de calidad y peinar tanto la pared o el suelo como la propia pieza, peinando con llana dentada del tamaño adecuado al formato de la pieza. Los lados de las piezas deben quedar perfectamente limpios antes de la colocación de la siguiente pieza.

2. To fix the tiles, use a quality cement/adhesive and comb both walls, floors and the pieces themselves, combing with a jagged trowel of a suitable size for the format of the tile. The sides of the tiles must be perfectly clean before the next tile can be laid.
3. Las piezas deben de colocarse perfectamente alineadas para mantener la verticalidad y horizontalidad de todas las juntas. En los casos en que se quiera colocar el material desplazado, las mismas no deberán estar separadas entre sí más de un 20% de la superficie total de la pieza.

3. The tiles must be laid perfectly straight in order to maintain the vertical and horizontal alignment of all the joints. In those cases in which you wish to bond the tiles, it should not be more than 20% of the length tile.
4. Usar un martillo de goma completamente limpio para asentar bien las piezas. No utilizar cuñas para establecer el ancho de junta. Para una óptima colocación se recomienda utilizar mecanismos de nivelación, como las campanas de colocación.

4. Use a completely clean rubber mallet to set the pieces. Do not use wedges to set the width of joint. For optimal placement we recommend mechanisms such as levelling pins.
5. Para garantizar una buena adhesión al soporte en baldosas de gres porcelánico, es imprescindible la utilización de materiales de agarre y de rejuntado específicos, además de ser adecuados para el ambiente al que vayan a estar sometidos. La colocación con morteros tradicionales, utilizados para baldosas de pasta blanca o roja, no garantiza una buena adhesión para las baldosas de gres porcelánico. Para garantizar una correcta instalación se recomienda el uso de mecanismos nivelantes durante la colocación.

5. To guarantee good adhesion to the base, for porcelain tiles, the use of specific adhesive and grout is essential, which must also be adequate for the environment and use to which they will be subjected. The use of traditional grouts, used for White or Red bodied glazed tiles, will not guarantee good adhesion of porcelain tiles. To ensure a correct installation, the use of leveling mechanisms products is recommended.
6. En materiales pulidos y/o rectificados, las piezas están ligeramente biseladas, para evitar despuntados y facilitar su colocación. En este tipo de materiales, al unir las piezas debe quedar una junta de al menos 1,5 mm de grosor para revestimientos rectificados y 2 mm para pavimentos rectificados, que debe ser sellado con material de rejunte tipo “junta fina” exento de áridos.

6. With polished and/or rectified material, the tiles are slightly bevelled, to avoid chipping and to simplify laying. For this type of material, when joining the tiles, a gap of at least 1,5 mm must be left for rectified wall tiles and 2 mm for rectified floor tiles, which will then be grouted with “fine seal” type grout, free of any impurities.
7. En el caso de materiales no rectificados, la junta deberá ser siempre de al menos 2,5 mm de grosor.

7. In case of non-rectified material, the gap left for the joint must always be at least 2,5 mm wide.
8. En la colocación en zonas de contacto con agua (duchas, cocinas,...) se recomienda utilizar material de rejunte impermeable-epoxi y garantizar la completa impermeabilización del revestimiento.

8. In case of tiling in places in contact with water (showers, kitchens,...), it is recommended to use a waterproof-epoxy grout to guarantee the complete impermeability of the coating.
9. En las paredes con ángulos internos hay que dejar 5 mm libres por la posible dilatación de las piezas. Será necesario planificar y ejecutar correctamente juntas perimetrales de 5 mm en superficies mayores a 7 m2 y de dilatación de 5 mm, cada 20 a 40 m2 de superficie en exteriores y el doble en interiores. La colocación sin juntas no es recomendable desde cualquier punto de vista técnico.

9. On walls with internal angles, 5 mm of space must be left free for possible expansion of the tiles. It will be necessary to correctly and accurately plan and do 5 mm perimeter boundary joints on surfaces greater than 7 sq meters, and 5 mm of expansion, every 20 to 40 sq meters of surface for exteriors and double that for interiors. Laying without joints is not recommended from a technical point of view.
10. Una vez finalizado el proceso debemos retirar el material sobrante antes de que se endurezca, y así proceder a una primera limpieza con productos no abrasivos, (no utilizar ni fluorhídricos ni derivados) basta con agua caliente y un detergente neutro.

10. Once the grouting process has been finished, we must remove any excess grout, before it can harden, going ahead with cleaning, using non-abrasive products (do not use hydrofluoric acid and it’s derivatives). The use of hot water with a neutral detergent is enough.
11. Para la limpieza de las piezas debe utilizarse una esponja limpia. No usar estropajos u otros materiales que pueden rayar la superficie de este producto.

11. For cleaning the tiles, you must use a clean sponge. Do not use a scourer or any other materials that might scratch the surface of the tiles.
12. Proteger adecuadamente las baldosas colocadas del tránsito de obra hasta la finalización de la misma.

12. Tiles once laid must be properly protected until the construction activity finishes.
13. La instalación del producto, supone su aceptación, y por lo tanto, no se admitirán reclamaciones de material instalado derivado del incumplimiento de estas premisas.

13. Laying the tiles means that they have been accepted, and, as a result, no claims will be accepted for material installed, arising from a failure to comply with these premises.
