primus  vitoria
green policy

Só há futuro para quem promova o desenvolvimento sustentável das comunidades.

A Primus Vitória prossegue uma política ativa na área do ambiente.

Assumimos um compromisso ativo nos mercados onde estamos inseridos, colaborando com os parceiros de negócio, autoridades e instituições na protecção do ambiente.

Porque acreditamos que temos responsabilidade de criar um mundo melhor, reciclamos todos os resíduos produzidos pela fábrica em diferentes setores:

Reciclamos 15 000 m³ de água por ano, o suficiente para:

- . 2 343 750 descargas de sanita;
- . 187 500 duches.

Reciclamos 1 500 milhões de resíduos cerâmicos. Transformados são suficientes para:

- . construir 785m de uma auto-estrada com 28m de largura.

Utilizamos equipamentos modernos para controlo da velocidade (VVE) nas máquinas de grande porte que nos permite poupar 10-30% no consumo de energia eléctrica.

A tecnologia LED está presente em toda a iluminação.

Assim conseguimos re-aproveitar um mínimo de 84 342 KWh, o suficiente para alimentar durante uma hora 281 139 lâmpadas.

Reciclámos em 2011, cerca de 36 toneladas de papel e papelão, o suficiente para:

- . salvar 630 árvores;
- . poupar 5 328 000 litros de água.

Estes valores motivam-nos para continuar a lutar...
